

PE and School Sport Funding Impact at Grange View First School 2013-14

Physical Education at Grange View First School enthuses and inspires pupils to participate fully, develop a life-long love of physical activity, sport and exercise and develop the skills and knowledge to significantly impact upon their lifestyles and physical wellbeing.

The Primary School PE and Sports Funding was allocated to all schools to improve the provision of PE and Sport to ensure all children achieve their full potential. We therefore decided to spend this year's funding on directly increasing participation in sport and extending sporting opportunities.

Since receiving the funding many beneficial changes have taken place within our school in relation to the range and delivery of physical education and sport.

- The funding has paid for a football coaches to develop basic ball control skills in PE and provided weekly after school club provision. As a result, this has seen an increased participation in partnership tournaments, with a inter schools competition and full after school football club.
- The funding has paid for a Yoga teacher at the beginning of each week on a Monday. This has helped the children develop their gross and fine motor skills as well as develop their listening skills.
- After school club provision has been enhanced through dance/zumba in which uptake has increased
- We have also had Archery sessions for the year 3 and 4 children from a qualified coach.
- Some of the money was used to purchase new resources to enhance PE lessons and outside playtime provision. At playtimes behaviour has improved as the children are actively involved using the equipment.
- Key stage staff have increased their knowledge though working alongside professionals and coaches.
- Grange View has achieved a Sainsbury's School Games Bronze Mark award for the provision of after school activities, PE and sporting competitions we have participated in throughout the year.

- Next year, we will continue to increase the range of sports offered to the children. Specialist coaches will be brought in to work closely alongside teachers to develop their CPD. This will include FA coaches, hoopla hoop training for TA's and CPD for Early Years, KS1 and KS2 staff, developing the children's basic skills, particularly in Early years and KS1. We will also look into getting more coaches in to offer more free after school clubs, giving the children the opportunity to try different sports.
