

Dear Parents,

This half term our topic is all about cool worlds. The children will be learning about animals that live in arctic and the Antarctic. They will look at weather trends here and why some places are colder than where we live. The children will also be learning about national treasure David Attenborough.

Miss Conroy

Our recommended read:

This half term 'Poles apart' is a recommended read. However if your child is a confident reader, they may enjoy 'The penguin who wanted to find out' by the same author as one of our favourite five last term. .

Where is the **coldest** places on earth?

What animals might you find in the **polar regions**?

How can animals **survive** in the **cold**?

How would you stay **warm** if you visited the **polar regions**?

Why is it so **cold** in the **polar regions**?

Spring 1

Beech Class
