

Dear Parents,

Although this half term is a short one, it is jam packed. We are going to be learning all about continents and oceans. The children will be able to name them and recall some facts. We will also be learning about different animals that live in the sea and start to think about food chains.

Miss Darlow and Miss Conroy

Our recommended read:

This half term 'The big book of the blue' is a great book to find fascinating facts about animals found all around the world. If a story is more your thing "Clean up" is a great one that is also about pollution.

Which continent do we live in?

Which continent is the largest continent?

Which continent is the smallest continent?

Can you name any oceans?

What animals do you know that live in the sea?

What does a shark really eat?

Spring 2

Monday- PE day- Wear your PE kit to school

Tuesday- PE day- Wear your PE kit to school

Wednesday –

Thursday – Reading book change day!

Friday- Family worship & **Library day.**

Things to remember:

Dead

Something that was once a living thing.
This can include fossils

Alive

Something that is living and breathing. This can be a plant or an animal.

Never been alive

Something that has never been a living thing and is not something that is dead.

Useful words

Continent – An area of land.
Earth has 7 continents.

Ocean- A huge body of salt water.

Food chain- What is eaten by an animal and what they are eaten by.

Habitat- A home for an animal or a plant.

Coast- Where the land meets the sea.

Globe – A model of the earth. We can use maps and images but a globe is the same shape as the earth.

Atlas- A book that contains many different maps about the world.
